DECODING THE PROJECT

What are the United Nations Sustainable Development Goals (SDGs) and their importance to SPL Coin project?

SocialPolis Con is one of the first cryptocurrencies for Social and Sustainable Development Economy.

The SDGs came into effect in January 2016, and they will carry on guiding UNDP policy and funding until 2030. These goals constitute a global and radical plan to challenge how humanity sees "development."

The Sustainable Development Goals (SDGs)

SDGs and SocialPolis Coin Project

SPL Coin initiative is related with the United Nations Sustainable Development Goals that constitute a framework within which people, businesses, NGOs and governments can collaborate and implement solutions. More specifically, SPL Coin is targeting the following SDGs:

- **Reduce Poverty:** Reduction of poverty in all its forms everywhere.
- **Downsize Hunger:** Achieve food security, improve nutrition and promote sustainable agriculture.
- **Good Health and Well-Being:** Ensure healthy living and promote well-being for everyone, regardless the age.
- **Clean Water and Sanitation:** Ensure availability and sustainable management of water and sanitation for all.
- **Decent Work and Economic Growth:** Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
- **Industry, Innovation and Infrastructure:** Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.
- **Sustainable Cities and Communities:** Make cities and human settlements inclusive, safe, resilient and sustainable.
- **Climate Action:** Take urgent action to combat climate change and its impacts.
- **Peace, Justice and Strong Institutions:** Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
- **Partnerships for the UN Goals:** Strengthen the means of implementation and revitalize the global partnership for sustainable development.

SDGs' compliance means that the Project is a solid solution being composed by new standards and innovations tools, applications, algorithms and platforms. A complete ecosystem, powered by programmable business processes and forms of financial transactions, will create game-changing market opportunities for the Social Economy industry and the Solidarity Economy.
